About Us

- We are a professionally run asset manager with a highly experienced and motivated team.
- PMS: We are a SEBI-licensed Portfolio Management Service (PMS).
- AIF: We are Investment Manager to MoneyGrow AIF Trust for managing MoneyGrow Alpha Fund 1 (Category III AIF).
- Our Investment Team has substantial net worth invested in the various strategies alongside the investors, thus ensuring complete alignment of interest with our clients.
- We have a long-term approach towards investing. We invest in businesses that are run by high-quality managements and where we expect robust growth over the next 3-5 years. Stock prices have been and will continue to fluctuate for various intrinsic and extrinsic reasons, and we generally do not attempt to predict short-term fluctuations.
- Our core investments are fundamentally sound, cash-flow generating, well-run and growing businesses led by trustworthy and highly competent management teams.
- We also invest in special situations i.e. in businesses that may not be performing as per their true potential at the moment but are likely to reach that potential in 1-2 years and match up to the standards of the core investments once their true potential is achieved. Often such businesses are undergoing a management change or balance sheet restructuring / sale of a part or the entire business.

Large Midcap PMS: Investment Approach

Investment Philosophy

Aim to invest in fundamentally strong companies based on 4P framework across the market caps for long term wealth generation

Investment Approach

Mix of top-down and bottom-up strategy and stocks will be selected basis various factors like fundamentals, valuations, growth, etc.

Large Midcap PMS: Attributes

Diversification

Invest in a well-diversified portfolio across various sectors and reduce concentration risk.

Adaptability

Flexibility to capitalize on opportunities in evolving market landscapes due to market agnostic approach.

Strong Conviction

More of a BUY and HOLD strategy with minimum churn.

Long-Term Growth

Invest in growth leaders where the long-term expected EPS growth is around 15-20%. This could lead to long-term wealth creation.

Small Midcap PMS: Investment Approach

Industry Potential

- Growing companies that are scalable over time
- Pricing power and benign competitive landscape
- Avoid sectors vulnerable to regulations, high-competitive intensity and short growth cycles

Business

- Companies with competitive advantages, delivering high RoCEs
- Structural growth stories with high cash flow generation with moderate to no debt (unless visible turnaround cases)
- Avoid companies with poor cash flows

Governance

- Managements with clear strategy and business model on generating shareholder value over long term
- Prudent capital allocation, in-line with minority shareholder interest

Valuations

- Offering a favorable risk-reward ratio: particularly on a cash flow valuation basis
- Valuation is not the sole investment criteria

Small Midcap PMS: Attributes

Scope for PE style investing

- Bottoms up study to identify emerging sub-sectors and companies
- Ability for value investing at a relatively earlier stage in a company's growth cycle while avoiding "winner's curse" of larger institutionally discovered companies

Emerging Opportunities

- Investing in sunrise sectors like green energy , recycling.
- Capitalizing on China +1 strategy, derisking supply chains
- Infrastructure focus, NCLT & Turnarounds

Ride compounding story

- Once correctly identified and comfortable with governance, ride the earnings growth story
- High earnings growth attracts institutional investors down the line
- The combination of EPS growth and PE re-rating leads to outsized returns

Dynamic Asset Allocation PMS: Investment Approach

- Portfolio comprising of Direct Plan Mutual Funds and/or Exchange Traded Funds (ETFs) across multiple asset classes: domestic and global equities, debt, commodities, precious metals, REITs and InVITs.
- Dynamic rebalancing across asset classes on a periodic basis.
- Zero distribution commission in Direct Plan Mutual Funds resulting in lower expense ratio as compared to Regular Plan Mutual Funds, thus boosting long-term returns for the investor.
- Absolute alignment of interest: investments are selected with investor's objectives/risk appetite in mind vis-à-vis the distribution commission paid out by the Mutual Fund houses to its distributors.
- Completely hassle-free for investors: the multi-step process of OTP-based validation of Mutual Fund orders and subsequent fund transfers is fully eliminated, making portfolio rebalancing exceptionally seamless.

Diversified portfolios limit drawdowns compared to pure equity

One asset can't fit every scenarios; Multi-asset portfolios can
